

Directions to allow Pop-ups for website

Microsoft XP SP2

With the release of Microsoft XP Service Pack 2, a Pop-up blocker is installed and enabled. For the DCAD website to work as designed, please add **maps.dallascad.org** to the list of websites that will allow pop-ups. To do this, follow the directions below.

- In the upper left hand corner of the Internet browser window select **Tools**.
- Hold the mouse over **Pop-up Blocker** to expand and display two options.
- The options are to either **Turn off Pop-up blocker** or **Pop-up Blocker Settings**.
- Select **Pop-up Blocker Settings**.
- Type in the address **maps.dallascad.org** and press the **Add** button. This will allow pop-ups to display for the Dallas Central Appraisal District web site only.
- Select the **Close** button to save settings.
